

Call for Abstracts

Cold Regions Living Shorelines Community of Practice welcomes oral and poster presentations for their Climate-Resilient Coastal Natural Infrastructure Workshop.

Targeted Workshop Topics: Nature-Based Adaptations, Building with Nature, and Applications, Challenges, and Successes

Submission deadline extended April 15, 2019 (11:59PM AT)

May 6-8, 2019
Saint Mary's University
Halifax, Nova Scotia

Join us for a pre-event fieldtrip to managed dyke realignment sites, providing onsite demonstrations and knowledge-transfers. Or afterwards, May 9-10, for the joint ACCESS 2019 Coastal & Estuarine Science event.

The CRLS is a workshop event, with speakers offering participatory and applied learning opportunities.
